

Installation and Safety Instructions

Floor Light

Safety Warnings

These instructions are for your safety. Please read through them thoroughly before use and retain them for future reference. If you are in any doubt about installing this product, consult a qualified electrician.

This product is only suitable for connection to a 220-240V~ 50Hz supply. It is for indoor use only, and not suitable for a bathroom location.

This fitting is a Class II, Double Insulated product and does not require an Earth. Live or Neutral must not be connected to Earth.

Do not attempt to plug in or use this product until it has been fully assembled. Disconnect from mains during assembly or maintenance. This product must be used on a stable, flat surface.

Under no circumstances must this lamp be covered with any material as this could pose a safety hazard. This product is not suitable for persons under 14 years of age.

This product may contain delicate parts – be careful during handling and maintenance to avoid breakage.

The lamp must be protected by a 3 amp fuse in the mains plug.

Never fit bulbs of a higher wattage than those specified on the label as these may damage the fitting.

Never put anything on the product or hang anything on any part of this product.

If the external flexible cable or cord of this luminaire is damaged, it must only be replaced by a qualified electrician to avoid any electrical hazards.

Waste electrical products should not be disposed of with household waste. Please recycle where facilities exist. Check with your Local Authority or local store for recycling advice.

Care and maintenance

For bulb replacement, switch off the product (preferably, isolate it at the distribution board) and allow it to cool down (Caution: bulb gets hot during use).

Clean with a dry cloth only. Do not use liquid or abrasive cleaners on this product.

Troubleshooting

When the bulb does not light after installation:

- > Please plug in and operate the switch to turn your lamp on.
- > Please check the bulb.
- > Please check the 3 amp fuse in the plug and ultimately check the relevant fuse in your fuse box.

If you have any doubt about installation/use of this product, consult a qualified electrician.

To use this item in Europe, the 3 pin adaptor can be removed by loosening the central screw and removing the adaptor to reveal the 2 pin Europe plug.

Assembly Instructions

1. Carefully remove all packaging from the base section, central tubes and lampholder and place on a stable, flat surface.
2. Screw the tube A onto the lampholder section in a clockwise direction. Take care not to trap the cable or cross the thread. Then Screw Tube B on to Tube A and Tube C onto Tube B in the same way.
3. Gently pull any excess cable through from under the base and then out through the side of the base. Turn the completed assembly anticlockwise approximately 6 times (Turning the tubes anticlockwise first ensures that the cable will straighten when the tubes are fully assembled). Screw the assembly in a clockwise direction on to the base. Take care not to trap the cable or cross the threads, firmly tighten the tube by hand.
4. Stand the product upright and check the tightness of the joints by hand.
5. Secure the inner shade with the shade ring.
6. Install the bulb. Do not install a bulb with a greater wattage or different shape than specified on the label.
7. Place the outer shade over the thread at the top of the inner shade and secure in place by fitting the washer and finial.
8. Plug in. Operate the foot switch to turn your lamp on.
