Light fitting.

Terminal connection block(s).

Fixing pack.

Decorative Balls as illustrated below:

#### The following tools may be required:

Selection of cross and flat head screwdrivers.

Electric drill and assorted drill bits.

Wire strippers.

Electrical insulation tape.

NO	PARTS LIST	Qty	NO	PARTS LIST	Qty
A		6	C		3
B		3	D		1

**These assembly diagrams are intended as a guide – if in doubt consult a qualified electrician.**

1. Decide on the position of the light fitting / or remove existing light fitting. Take a note of the position of the electrical connections. Ensure there is a solid mounting surface, preferably a wooden joist or joist bridge to support the weight of the light fitting.
2. Remove the two side screws (4) and retain them for re-use. Use the fixing bracket (1) as a template to mark the screw holes, and secure to the ceiling with appropriate fixings (2).
3. Support your fitting and connect the house wiring to the terminal block (3) – see expanded wiring details below. **NOTE: This is a Class II fitting and must NOT be earthed.** Any loose terminal blocks – not secured to ceiling cup – should always be covered with 2 layers of good quality insulation tape.

## Assembly/ User Instructions Continued

4. Secure the ceiling cup over the bracket by using the screws (4) removed in Point 2.
5. Carefully hang the decorative balls onto the frame (5).
6. Turn on the power and test.
